BUSINESS TRANSFORMATION

The company's top objectives:
- Give employees a single place to access the information they need
- Accelerate the on-boarding of new hires
- Improve HR productivity by handling routine inquiries from a large audience more efficiently

The resolution:
- Deploy the SAP NetWeaver® Portal component to support employees in 15 countries
- Provide centralized, online access to information including tax documents, business intelligence reports, and forms to support processes such as reimbursement and leaves
- Rely on employee self-service to distribute routinely used templates and information and to resolve queries quickly

The key benefits:
- Enterprise-wide integration of information
- Faster on-boarding of new hires
- Improved productivity of the HR team

"SAP NetWeaver Portal has been tremendously helpful in making employees self-sufficient."

Sanjeeb K. Swain, Project Manager, Oil and Natural Gas Corporation Limited
