SAP Partner Success Profile | Crystalis Consulting-Mexico

Crystalis Consulting-Mexico Chooses Mobile Solutions from SAP for Their Innovative Qualities

Crystalis Consulting-Mexico stands among the Seidor Group's international lineup of companies dedicated to improving client business processes through SAP® software and platforms. Crystalis has now expanded its portfolio to include mobile solutions from SAP that give customers secure around-the-clock access to information regardless of the location or the mobile device. "We see continued innovation and great quality in SAP products," says Fernando Russo, director of key partnerships for Crystalis. "We are very excited to offer these solutions to our customers."

"SAP Rapid Deployment solutions get you up and running quickly with SAP software. Our customers can save money and it offers quick time to value for them — just six to eight weeks to implementation."

Fernando Russo

Grow Your Business with Mobile Solutions from SAP

SAP Solutions Open the Door to New Sales Opportunities

Objectives
- Address rapidly growing demand for mobile solutions
- Offer a powerful and comprehensive package of mobile solutions that meets customer needs for improved business processes, platforms, development tools, and applications
- Help customers reduce expenses and work more efficiently

Why SAP Solutions for Enterprise Mobility?
- Sybase® Unwired Platform and SAP Afaria® mobile device management solution are innovative and high quality
- Industry-leading security features of SAP Afaria protect tablets, smartphones, and notebooks
- Workflow functionality in Sybase Unwired Platform ensures real-time access to critical data to make informed decisions away from your desk
- A fast return on investment is afforded by the SAP rapid-deployment solutions for mobile apps and infrastructure

Why Partner with SAP?
- SAP is a recognized global software leader in business process and management solutions, well positioned to help partners supply the needs of 13 million workers worldwide who use mobile technology
- SAP educational programs and training resources make entering the mobile solutions market easy
- A wide variety of business-building programs and sales and marketing resources give partners the edge in successfully entering the mobile market

Benefits
- First sale within three weeks of offering mobile solutions from SAP
- Increased levels of customer satisfaction when SAP solutions save time and money for clients' mobile workforce
- SAP Rapid Deployment solutions allow more efficient, scalable implementations
