Inmac Wstore: Gaining Better Collaboration, Integration, and Efficiency with SAP® Business All-in-One

Inmac Wstore, a leading French Web retailer of IT products, had developed a complex information system over the years that began to constrain the company's growth and effectiveness. An SAP® Business All-in-One solution, implemented by TVH Consulting, now helps Inmac Wstore **work more collaboratively with its suppliers** and transporters and has also reduced internal costs.

BUSINESS TRANSFORMATION

The company's top objectives:
- Achieve real-time information flow between departments
- Improve inventory management
- Work more collaboratively with suppliers and transporters

The resolution:
- Implemented an SAP® Business All-in-One solution (almost all processes)
- Assigned a team to conduct implementation with early involvement of a group of key users and partner TVH Consulting engaged

The key benefits:
- Integration of all inventories
- A boost in customer satisfaction without the need to invest in other resources
- Reduction of internal costs
- Compliance with French and U.S. GAAP regulations
- Easier to perform internal and external audits

TOP BENEFITS ACHIEVED

4x
More storage capacity

30%
Lower payroll cost

66%
Fewer software components

"SAP offered a unique solution thanks to its functional scope coverage and answer to our distribution requirements, including the need for 24x7 delivery."
Laurent Courteaud, CIO, Inmac Wstore
