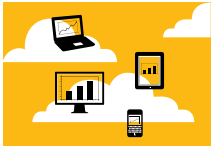
Capgemini: Delivering Procurement Solutions from SAP Through the IBX Procurement Cloud Solution

IBX Procurement Cloud from Capgemini leverages the SAP® Supplier Relationship Management, SAP Sourcing, and SAP Contract Lifecycle Management applications to help customers reduce procurement costs. These cloud solutions cover the full source-to-pay process and are enhanced by operational and professional services delivered by Capgemini procurement experts across the globe.

Capgemini
CONSULTING.TECHNOLOGY.OUTSOURCING

A complete source-to-pay procurement solution

Available through the cloud



Partner offering

- Cloud solutions and operational services (delivered through 5 global delivery centers) that maximize the value customers realize from SAP® software
- An online-shopping user interface with one-click purchasing functionality for popular products
- A global supplier network
- A contract implementation process to help ensure contract compliance

Why Capgemini?

- A proven solution to reduce procurement costs that's used in 110 countries – and by customers such as Ericsson, Hilti Corporation, Skanska Group, IKEA Group, and Kraft Foods Inc. – to manage over US$17 billion in spend
- 24x7 support, supplier enablement, and operational services offered globally
- ISO 27001–certified, financially stable provider that consistently meets service-level agreements
- An SAP-certified global partner for business process outsourcing since 2008

Benefits

- Captured spend and contract compliance increased
- Companies running IBX solutions have an average of 10 times more catalogs connected (compared to leading cloud service providers)
- Quick return on investment through reduced capital costs, rapid adoption, and swift onboarding of procurement-ready suppliers

"Capgemini had a complete platform and extensive experience with the rollout of purchasing solutions. We got a quick start and didn't have to take on large development costs."

Sandra Petersson, Project Manager for Skanska's Effect Program, Skanska Group
