2006

Services for SAP Software Environment
- SAP-certified provider of cloud and hosting services from data centers in the United States and abroad
- Delivery of a managed virtualized infrastructure that includes the network, servers, and storage
- Proactive maintenance and monitoring
- Application performance monitoring and reporting

Customer Benefits of Cloud Computing in an SAP Software Environment
- Scalability to meet new needs
- Elimination of up-front capital costs
- Centralized control

A Leader in Cloud Computing Solutions

SAP and AT&T enable enterprise customers to virtualize their enterprise applications within a network so that they can be accessed through the cloud – anytime and anywhere they are needed. By applying the intelligence of AT&T's network to SAP® applications, AT&T's cloud solutions enable businesses to operate more efficiently – and at a greater scale and velocity.

ing information across wired and wireless networks to any device. Gaining certification also validates to customers and prospects seeking cloud-based SAP software deployments that AT&T offers trusted solutions and expertise that can help them:
- Swiftly respond to new demands
- Scale infrastructure usage
- Reduce costs

For example, with AT&T Synaptic Compute as a Service, customers can

> "As an SAP global partner certified to provide both cloud and hosting services, AT&T is uniquely positioned to provide seamless, network-based SAP solutions to customers seeking cloud solutions."
>
> **Eric Schmidt,** GM SAP Services, AT&T Inc.

These cloud services are complemented by AT&T's comprehensive managed services, as well as:
- Access to SAP expertise 24x7x365
- A dedicated account lead
- Proactive maintenance and monitoring
- Application performance monitoring and reporting using the AT&T Managed Application Services Tool

Why Cloud Certification from SAP?

AT&T wanted SAP certification to highlight its ability to use the cloud to build on AT&T's strengths and experience in building platforms and deliver-

eliminate the hardware and complex hosting agreements associated with dedicated infrastructure. Instead, they get a cloud-based on-demand service that gives them quick access to virtual servers and freedom to dial the service up or down as needed.

A Thriving Partnership

As an SAP global partner, AT&T enjoys a long-standing partnership with SAP and is a leading provider of cloud-based SAP solutions. Today, AT&T is SAP-certified in cloud and hosting services.
