# Subscription-based hosting model

## Attractive options of SAP® Business All-in-One solutions

### Objectives
- Speed up month-end closing process
- Establish integrated software platform for diverse departments
- Adopt proper approval procurement process
- Produce accurate management reports promptly
- Support expanding business processes

### Why SAP
- Good reputation
- Ability to cater to Staflex's business-process needs
- Flexible deployment options of SAP® Business All-in-One solutions
- Attractive arrangement provided by subscription-based hosting
- SAP Best Practices packages that lay a foundation for reliable, cost-efficient implementations

### Why Partner
- Good industry reputation and solution know-how that fits Staflex's needs
- First and only partner to offer subscription-based hosting for SAP Business All-in-One solutions
- In-depth product and industrial knowledge that gave Staflex the confidence to proceed with the implementation
- Ability to map the implemented solution with the company's long-term plans and goals

### Benefits
- Faster month-end closings
- Accurate, real-time reporting
- Integrated software platform for diverse departments
- Licensing options that suit the company's budgetary preferences

### Future Plans
- Provide all employees access to the SAP software
- Roll out SAP software to future subsidiaries as company expands
