

L&L Products Europe: Streamlining Processes and Supporting Growth with an SAP® Business All-in-One Solution

Innovation is the name of the game in the automotive industry. In order to stay ahead of the latest trends, L&L Products Europe knew it needed a single, unified IT platform to streamline business. With the SAP® Business All-in-One for Automotive solution, specialized for automotive suppliers, electronic data interchange (EDI) orders are now automated and financial close cycles have been reduced by 30%.
