

CPS Color – based in Vantaa, Finland – is the world's leading supplier of advanced tinting systems. CPS Color supports its customers from the initial design of the tinting system, through its implementation, all the way to its daily operation. CPS Color's aim is to be the industry's benchmark for quality and reliability and to continue to bring out tinting technologies to new industries and markets.

## CPS COLOR

### AT A GLANCE

#### Key Challenges

- Insufficient integration between logistics and finance functions
- Changing and growing demand of EU legislative information
- Integration between R & D and actual production
- Complex pricing, bonus, and commission calculation structures

#### Project Objectives

- Improve efficiency and harmonize processes
- Enhance information visibility across entire enterprise
- Replace legacy systems with an up-to-date solution that will enable collaboration and electronic communication

#### Why SAP® Solutions and Services

- Software package provided the possibility for a quick and affordable implementation
- Most critical features were available in the standard solution
- SAP® software and services are globally available

#### Implementation Highlights

- Enabled go-live within 7 months from kickoff
- Provided blueprinting and functional analysis of operating model
- Documented business processes and related technical processes using the SAP Solution Manager tool

#### Key Benefits

- Fast implementation included baseline functionality.
- Functionality matched the company's needs.
- Modularity provides the possibility to implement other functions in addition to baseline functionality

#### Web Site

[www.cpscolor.com](http://www.cpscolor.com)

#### Industry

Chemicals – tinting systems

#### Solutions and Services

- mySAP™ ERP application
- SAP Environment, Health & Safety application
- SAP Best Practices Baseline Package offering
- SAP Project Management service
- SAP ASAP Focus methodology

#### Implementation Partner

SAP Consulting

**“The SAP software enabled us to create a global and common operating model for our colorant business. We were able to replace existing legacy systems with an up-to-date solution that will support our future development. The baseline package implementation made it possible to go live within 8 months and a reasonable budget.”**

Katja Heiskanen, Business Process Development Manager, CPS Color
