

Roche: Gaining Best Security Practices and Steering Development Through SAP® MaxAttention™ Services

A key success factor behind the secure IT landscape at F. Hoffmann-La Roche Ltd. (Roche) is the company's close contact with security experts from SAP, made available as part of SAP® MaxAttention™ services. Roche began **collaborating with SAP as its security partner** over six years ago. That close collaboration is strengthened by an annual security workshop involving many SAP teams and driven by the SAP Active Global Support (SAP AGS) organization.

Collaborating with SAP security experts

Applying innovative solutions to ramp up security

Objectives

- Get sneak previews of and firsthand information on new security applications from SAP
- Pilot solutions to specific security requirements
- Implement standard security solutions from SAP
- Bring together security experts with different skill sets for knowledge and experience exchange
- Share best practices and enable collaboration between Roche and SAP colleagues
- Influence SAP® software development in the area of security solutions
- Align internal stakeholders around a common understanding of security issues

Why SAP

- First choice as a software provider based on a successful track record
- Availability of security workshops that draw upon the expertise of numerous internal SAP teams including SAP Consulting, development, IT, and product management to optimize IT security

- Long-term collaborative relationship based on a strong, trustful partnership
- Ability to directly influence the development of future security functionality in SAP software

Benefits

- Close contact with SAP's best security experts
- Shortest possible communication path to SAP developers and decision makers, enabling Roche to steer software development
- Ability to apply the concepts, knowledge, and experience gained in the security workshop to daily work

Future plans

- Continue to rely on SAP MaxAttention™ services to safeguard deployed SAP solutions
- Hold in-depth security workshop annually to realign strategies and discuss operational topics
