

OERLIKON LEYBOLD VACUUM VACUUM TECHNOLOGY COMPANY MEETS HIGH STANDARDS WITH SAP® SOLUTIONS

Oerlikon Leybold Vacuum GmbH's ability to meet the highest requirements of complex applications gives its customers the ability to succeed. The company offers a range of advanced vacuum solutions through high-duty processes in metallurgy, clean rooms at renowned R & D institutes, and coating applications of minute dimensions.

QUICK FACTS

“Introducing SAP RPM boosts R & D performance toward more efficiency and predictability and supports fact-based business decisions for increasing future added value for Oerlikon Leybold Vacuum.”

Jörg Trommer, Research & Development,
Oerlikon Leybold Vacuum GmbH

Company

- Name: Oerlikon Leybold Vacuum GmbH
- Location: Cologne, Germany
- Industry: Industrial machinery and components
- Products and services: Vacuum solutions for use in manufacturing and analytical processes
- Employees: 1,576
- Web site: www.oerlikon.com/leyboldvacuum
- Implementation partner: SAP® Consulting

Challenges and Opportunities

- Manage R & D projects more effectively
- Build and monitor project portfolio efficiently

Objectives

- Meet stringent requirements of most complex applications
- Support portfolio monitoring
- Assign resources and manage tasks efficiently

SAP Solutions and Services

- SAP Resource and Portfolio Management (SAP RPM) and Collaboration Projects (cProjects) applications
- SAP Solution Business Value Assessment services
- SAP Solution Implementation Consulting services

Implementation Highlights

- Usage of SAP RPM for additional project and investment types, like capital projects
- Implementation of full SAP RPM project life-cycle process including cProjects
- Full integration with SAP ERP Human Capital Management (SAP ERP HCM) solution and SAP functionality for project system and cross-application time-sheet management
- Deployment of 99% of standard functionality with only small enhancements
- Completed on time and coordinated with the global SAP rollout

Why SAP

- Leverage of infrastructure in project and portfolio context
- Flexible, guided implementation support
- Combination of best-practice and prepackaged consulting solutions

Benefits

- Shorter time to market
- Reduction of resource bottlenecks
- Higher resource utilization
- Better decision support
- Higher financial transparency for development operations
- Improved reporting efficiency
- Better results due to international collaboration platform

Existing Environment

SAP ERP HCM, SAP Enterprise Portal (now known as the SAP NetWeaver® Portal component), and SAP NetWeaver Business Intelligence (functionality that is now known as the SAP NetWeaver Business Warehouse component)
